

military gets the money that they need and deserve. They deserve to be paid even better, but they certainly do not deserve to have their funding cut, not holding our military hostage in demand for people who had come into the country illegally.

The American public made clear that they did not want the whole country to suffer because they were being held hostage, while some folks demanded legality for people who came in illegally. Let's keep things separately. Let's keep our military going forward, and now let's go about the business of the country.

FACT-CHECKING THE INACCURACIES

(Mr. RICHMOND asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RICHMOND. Mr. Speaker, I come to the mike tonight just in a way of fact-checking all of the inaccuracies that we hear.

If Members listen to the White House, if Members listen to my colleagues on the other side, they pretend that this whole shutdown was over illegal immigrants versus American citizens.

Our DREAMers, who came here as children through no fault of their own, were legal until the President decided to withdraw their legality and their documentation. He made them here undocumented.

The second part of all of this is they are saying: Oh, we are funding our troops.

It was General Mattis who said that funding the troops with a continuing resolution was debilitating for our armed services.

So there are a lot of things that we hear, but on the House floor in this United States Congress, the one thing we owe to the American public and to our citizens is the truth, whether it is on our side or whether it is not.

The truth is they have well over 230 Members. They could pass a budget if they wanted to. If they would work with both sides, then we could continue to do what the Congressional Black Caucus has done since the beginning of time, which is make this country a more perfect Union.

OPPOSING HOLDING HOSTAGE UNRELATED BILLS

(Mr. MOONEY of West Virginia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MOONEY of West Virginia. Mr. Speaker, for 3 years, I have waited for the moment here where I want to commend my colleagues in the Senate, the majority party, for exposing the fallacious argument that you can hold hostage unrelated bills before you pass spending bills.

Frankly, we call upon them to pass the appropriations bills to fully fund the government through September.

We in this body, last year, had passed all 12 separate appropriations bills, fully funding the military and other government functions all the way through September of this year. That needs to happen in the next 3 weeks, because we have only a 3-week extension that we voted for.

I am proud that the American public saw the false arguments that are being used, particularly on the other side of the aisle, where the minority party holds hostage funding bills and demands concessions on other nonrelated legislation.

If they want to filibuster stuff over there, first of all, make them do it so the American public can see it, which happened over the last few days, and make it related to the bill on the floor at the time.

WHY I VOTED NO ON THE CONTINUING RESOLUTION

(Mr. CLYBURN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CLYBURN. Mr. Speaker, I wish to explain to the American people exactly why I voted "no" on this continuing resolution earlier today.

If you look at all that has been said about the Children's Health Insurance Program, what you are going to find is that we extended that program in this CR for 6 years with a savings of \$1 billion.

It is a sleight of hand, because we did not fund community health centers; we did not fund the disproportionate share hospitals, mostly rural in my district; we did not fund adequately the teaching hospitals.

So if you wanted to really be honest with the American people, we could have extended the Children's Health Insurance Program permanently and saved \$6 billion and would have had enough money in the savings to expand our community health centers, to fund disproportionate share hospitals, and to fund teaching hospitals, that which we did not do, and I voted "no."

NOW WE CAN COMPLETE THE WORK AT HAND

(Ms. HERRERA BEUTLER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. HERRERA BEUTLER. Mr. Speaker, I am so glad we are now back here with the government open. I have been here these last few days over the weekend with my staff working hard to make sure that we get our government open and working for its people, for its military families.

Today, I was over on the Senate floor when the Senate closed its vote in support of reopening our government. Now we can complete the work at hand. This is incredibly important.

I just wanted to mention this. I, too, actually, as a previous speaker talked about being detained in the security lines, was unavoidably detained in those same security lines, but I wanted to come here onto the House floor and make sure that folks know we are here hard at work, we are going to make sure that we move forward from this. I am looking forward to addressing the issues at hand, making sure that we get a long-term solution.

I am pleased with the CHIP funding that we were able to put through. This is something we have been working on now for several months. The House has voted in support of this. I have supported it many times now.

As an appropriator, we had gotten these bills funded months ago. I am looking forward to a permanent solution here so we can get about doing the people's work.

SIDING WITH THE AMERICAN PEOPLE

(Mr. ROHRBACHER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROHRBACHER. Mr. Speaker, the shutdown is over, at least temporarily.

The American people should pay attention to what this was all about, how come the government shut down. The issue at hand which made sure that there was a separation, an opinion, that shut down the government was the following: should we be legalizing the status of 850,000 young people who were brought here illegally and came here illegally.

The bottom line is we are talking about not tens, but hundreds, of millions, even billions, of dollars that would be siphoned away from that fund that we have here in Washington aimed at helping the American people. That money, the money that we have available for the veterans, available for seniors, available for our own young people, would be drained in order to give, yes, hundreds of millions of dollars to people who have come here illegally.

Of course, 850,000 young people would then be given the right to bring in their relatives; so we are talking about millions of people being brought here because of 850,000 illegal young people here.

The American people, whose side are we on? That was the question about this shutdown. Pay attention. The American people, will they have to have all of their resources drained away in order to take care of people who have come here illegally? No.

I hope the American people pay close attention to who is siding with the American people versus who is siding with foreigners who have come here illegally and letting them suck up scarce funds here in Washington.
